

IMAGINE

Any business could start processing
cryptopayments *in a matter of hours.*

Sounds sweet, right?

But have you ever asked a question why they don't accept crypto now?

HINT

It's complicated to build a whole
crypto infrastructure from scratch

Flexibility

Crypto Regulations

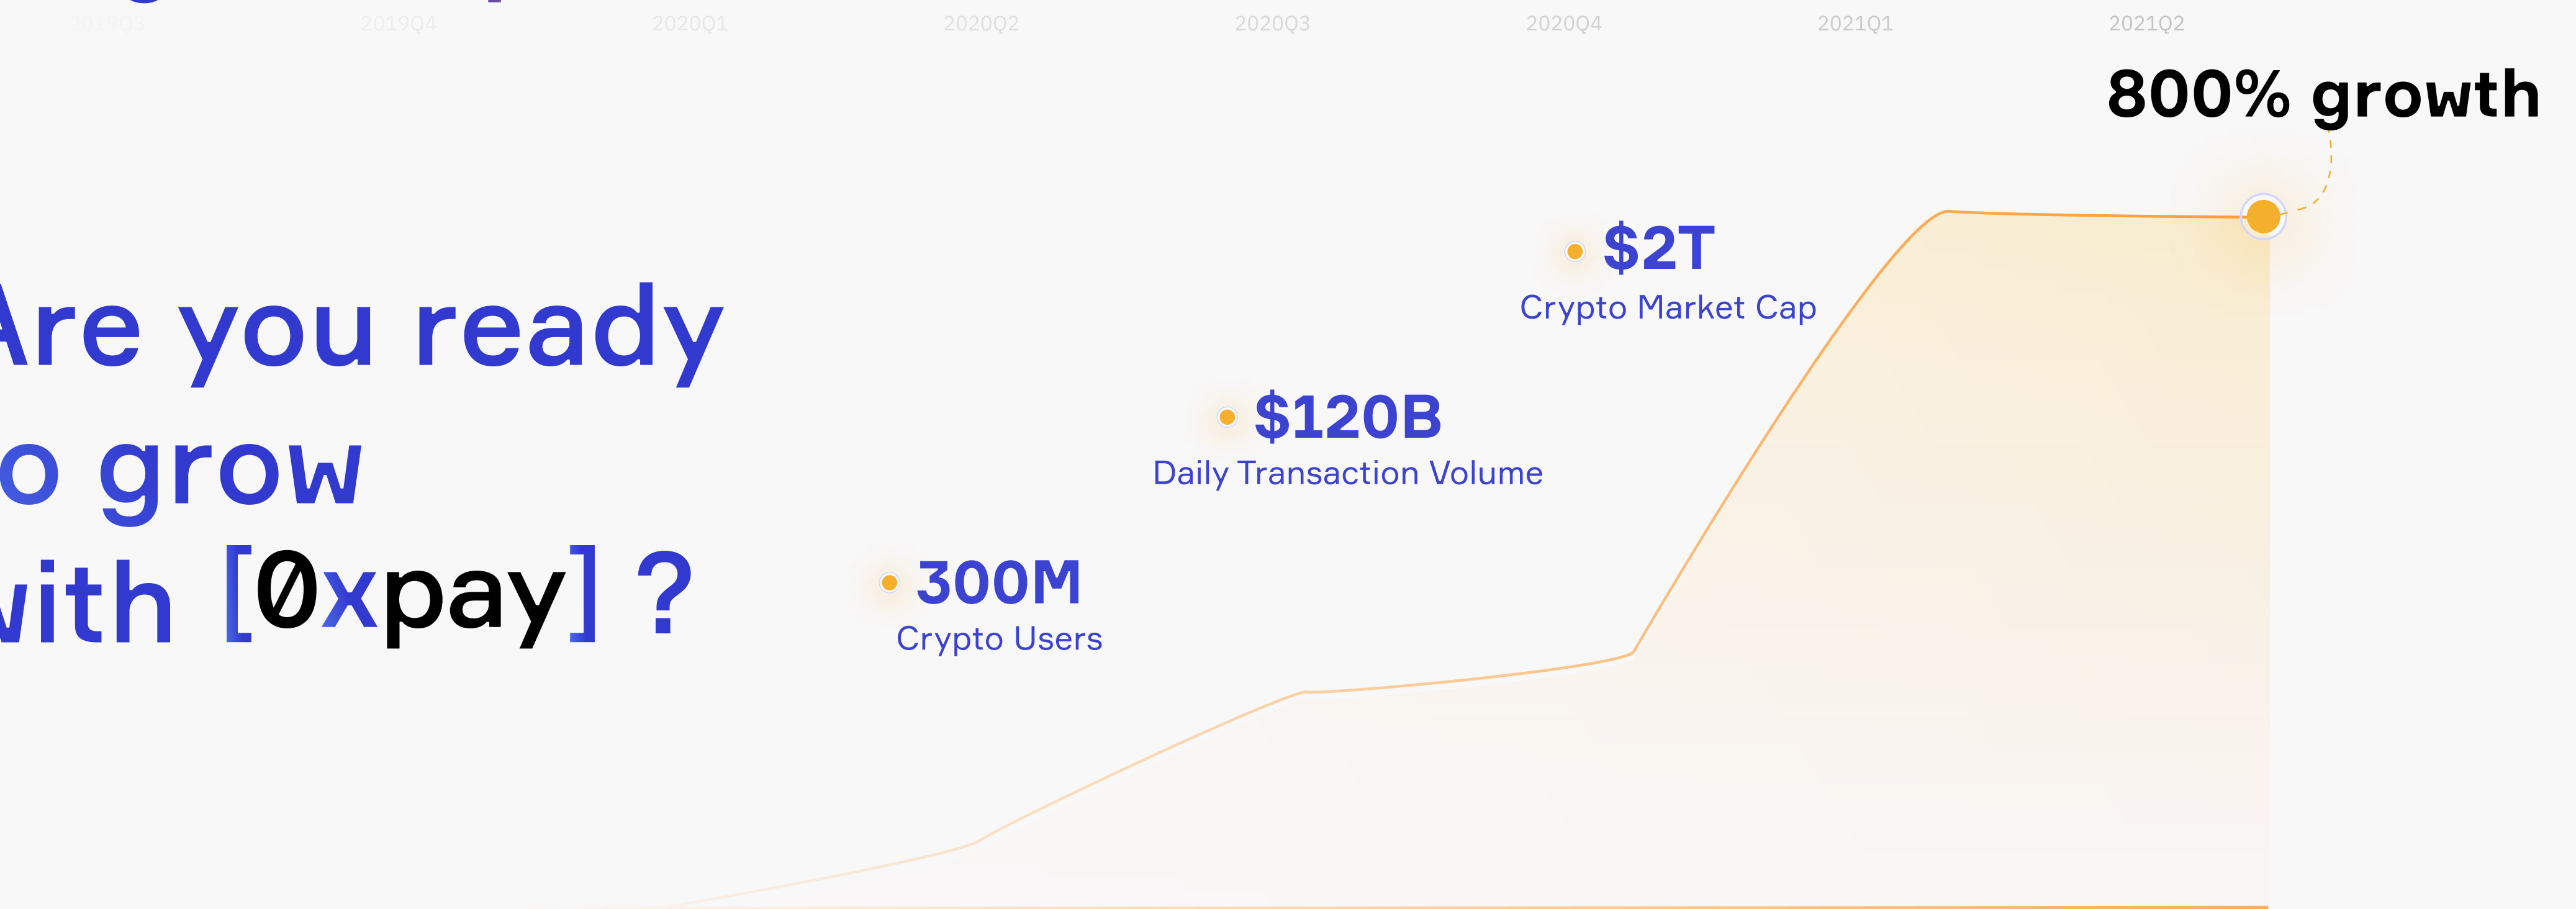

Audits & Safety problems

Time-consuming development

Volatility of Digital Assets

Despite all the challenges, crypto adoption has grown up **800%** in 2021-2022.

Are you ready
to grow
with [0xpay] ?

Chainalysis Global Crypto Adoption Index: Sum of all countries' index scores by quarter

There are lots of “just good” processing solutions.

0xpay is better than just good enough. It was made to power up complex crypto projects with just a few lines of code.

Fast

Fast Integration

Just a few ways [0xpay] will bring new horizons to businesses.

- Connect API & start receiving crypto in 2 hours
- Manage your custody and configure users wallets
- Create mass withdrawals with 1 API call
- Platform is already audited and passed safety checks
- Deliver crypto services with lightning-fast speed.

```
1  import XPay from '@xpay/integration'
2
3  let xpay = new XPay(merchantId, privateKey)
4
5  // get replenish address for user fundings
6  let address = await xpay.getReplenishAddress('BTC', 'my-user-id')
7
8  // withdraw funds
9  let withdrawId = await xpay.withdraw('BTC', '10', 'bc1qxy2kgdygjrsqtzq2n0yrf2493p
10
11 // validate replenish/withdraw notification and get fundings data
12 let ipn = await xpay.validate(request)
13 ipn.ticker // currency ticker (BNB, BTC)
14 ipn.amount // amount of cryptocurrency received
15 ipn.id // id to track transaction
```

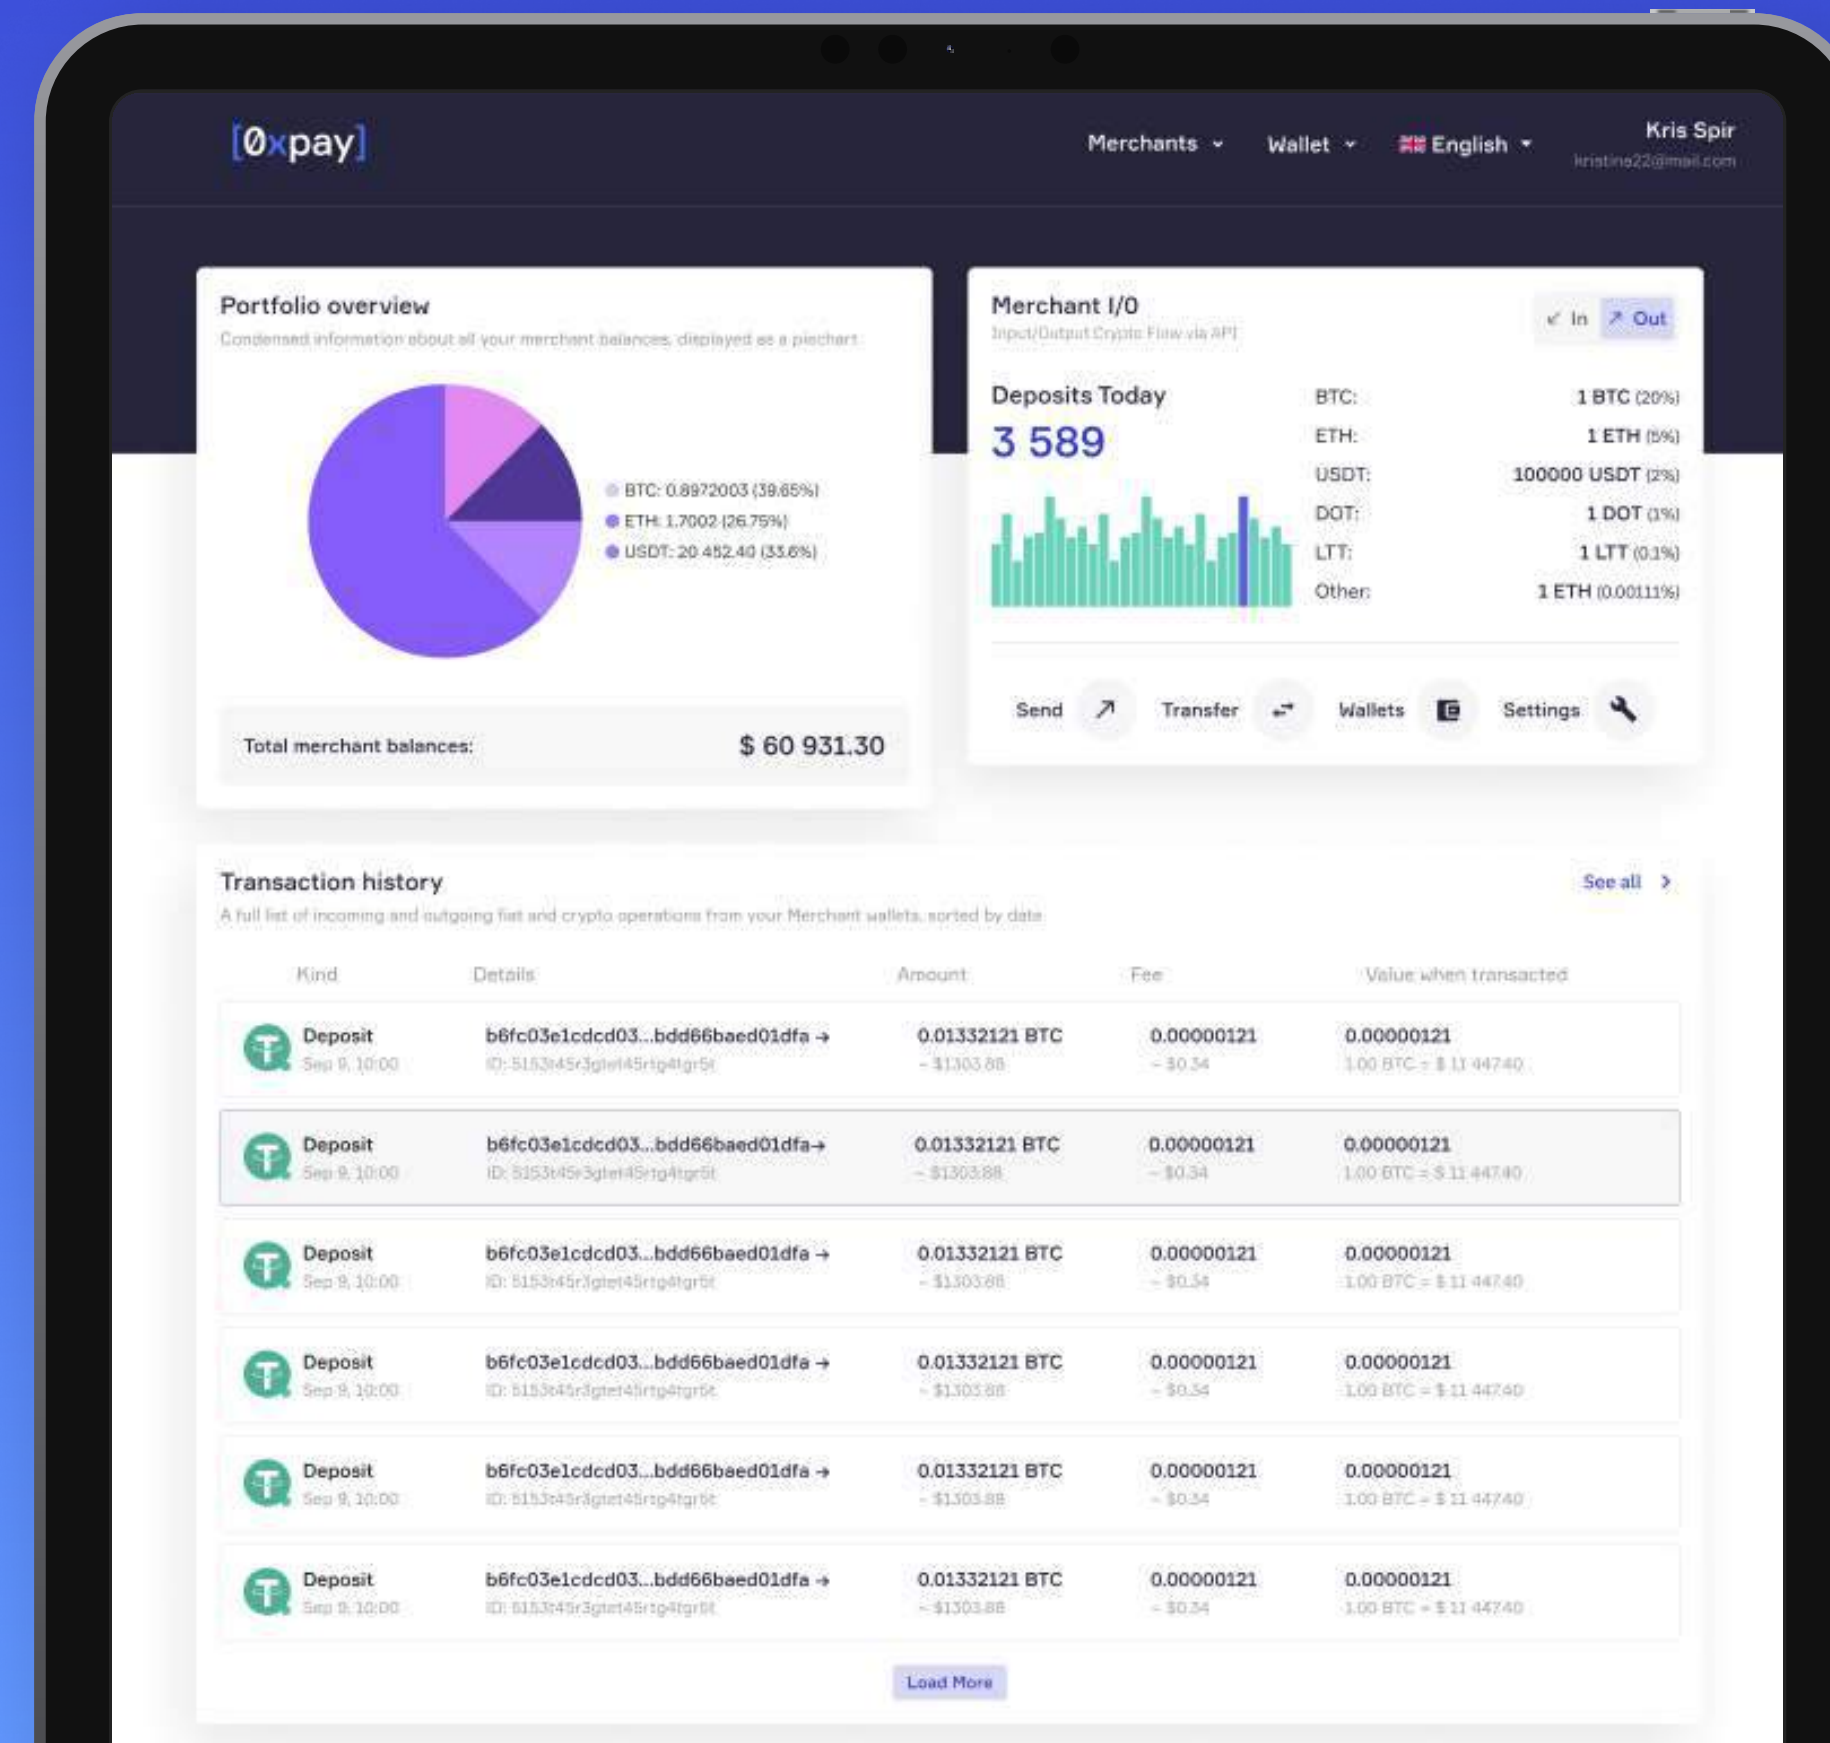

A perfect place to keep funds, control them and manage your business.
